Re: Docket No. 12504

- A. I am very supportive of this authority citation for part 129. As a hopeful future Commercial Pilot and concerned citizen of the United States, I encourage you to take into account my suggestions for the Operations of Foreign Air Carriers.
- B. The following are my recommended additions to the already existing proposal of 14CFR Part 129:
1. >129.13(a) - Include a phrase specifying, "All passenger carriers entering the United States must have an annual certification with quality testing for the durability and safe operation of the flight deck door in accordance with current regulations."
 2. >129.28(a)(1 and 2) - The word "door" throughout 129.28, needs to be more specific. Note to refer to section 129.28(c)(1 and 2).
- C. Thank You for this opportunity to participate in this rule-making process, and I truly believe that this citation will fully prevent and deter any further action similar to that of Sept. 11, 2001.

Sincerely,

Jeremiah A. Stevens
